

Electric inflator with inflating/deflating kit

Electric power	1.000 W
Feeling tension	230V 50Hz
Internal protection	IP54
Insulation Class	Double insulation
Free air flow (litres/minute)	1.100
Pressure (bar)	0.30 max
Dimensions (mm) L x D x H	260 x 260 x 310

Electric Plant

Made up of the switchboard, neon lamps, extensions, emergency lamps

Insulation Sheet

Manufactured in fireproof material, it protects the internal room from the condensation and the humidity. It keeps the inner temperature.

Carpets

Special green carpet. Made up of rolling strips, it forms an internal flooring insulating from the humidity of the ground and keeps the dust

Sun-shadow kit

External protection that reduces the internal temperature of about 5-7 degrees and protects from the sunbeam.

Tent accessories

Levelling tile

In highly resistant material, it levels the surface below the tent and allows to constitute, on the ground, the connecting lanes between the various tents.

Technical characteristics:

Dimensions : 1200x600x25h mm (+/- 5mm)

Colour : green

Weight : 4 kg (+/- 3%)

Material: Low density polyethylene

Static load: 400 kg/ dm²

Solutions for the internal air-conditioning

- Air conditioner/Heater
- Hot air generator for tents
- Heat pump
